CertMaster Learn is an interactive, comprehensive eLearning experience that uses videos, practice questions and performance-based questions to prepare learners for CompTIA certification exams and their career in IT. CertMaster Learn is designed for self-paced learners at the beginning of their study process. It is an alternative to a book and works nicely when combined with virtual labs and practice test products.

Key Features

- **Lessons**
  - Lessons are aligned with CompTIA exam objectives and teach the content in an engaging way.

- **Learning Plans**
  - Keep learners focused on study tasks and on track with their course completion goals.

- **Videos**
  - Developed exclusively for CompTIA by ITProTV demonstrate procedures and explain difficult concepts.

- **Practice Questions and a Final Assessment**
  - Provide opportunities for learners to check their knowledge and demonstrate what they've learned.

- **Performance-based Questions**
  - Require learners to apply what they have learned in job-related scenarios.

- **Strengths and Weaknesses Dashboard**
  - Shows learners what they understand and what they are weak on to increase learning efficiency.

- **Flashcards and a Game Center**
  - Provide opportunities for learners to quiz themselves on the terminology and acronyms used in IT.

What makes CertMaster Learn different?

- For exam takers, by the exam publisher – CertMaster products have been developed using Official CompTIA Content, the only study material exclusively developed by CompTIA for the CompTIA certification candidate.
- This interactive and self-paced tool combines instructional lessons with assessments, videos, and performance-based questions to provide over 40 hours of content tied to exam objectives.
- A customizable learning plan helps learners stay on track with their studies, while robust analytics bring awareness of strengths and weaknesses, ultimately guiding the learner to develop the necessary skills for success on their CompTIA exam and in their IT career.
- Gamification features within CertMaster Learn such as achievement badges and a game center, encourage and motivate learners to engage with the content and accomplish study goals.
- Focused on job roles and 100% coverage of objectives.
- Practical, based on real performance scenarios and problems.
- Hands-on activities require students to put knowledge they have gained into practice.
- Most current and up-to-date content related to the exam.
